PROFESSIONAL SUMMARY

Enthusiastic, creative, and hardworking 3rd-year Information Technology student seeking an internship/full-time role to apply technical skills, work on challenging projects, and gain hands-on industry experience.

EDUCATION SUMMARY

- Pursuing Graduation **B.E** (program) from Chaitanya Bharathi Institute of Technology
Current **CGPA: 8.34**
- 12th passed from Telanaga State Board of Secondary Education-2023 : **91.1%**
- 10th passed from I.C.S.E Board-2021 : **89.16%**

PROJECTS

- **Maze Game using BFS & DFS (Data Structures Project)** – Implemented BFS and DFS algorithms to create a maze-solving game, showcasing understanding of graph traversal techniques.
- **Club Management Website (Front-End Project)** – Developed a responsive web application using HTML, CSS, and JavaScript to manage club activities and events.
- **VitaLink: Ambulance Booking System (Mini Project)** – Built a cross-platform ambulance booking app using OpenStreetMap API for real-time location tracking and route visualization.
- **Student ERP System** – A web-based platform for managing student activities like courses, attendance, materials, quizzes, and announcements in one place for students and faculty.
- **SupplyChainGuard** – Blockchain Supply Chain Integrity System
 - Built a blockchain-based platform using Ethereum(sepolia testnets) smart contracts to track product batches and ensure tamper-proof provenance across supply chains.
 - Implemented role-based dashboards with wallet authentication and anomaly detection to identify counterfeit injection and unauthorized activities.
 - Developed a consumer verification interface to display complete batch history and integrity status through a secure, user-friendly UI with a QR developed for tracking.

SKILLS

- **Programming Languages:** Python, HTML, CSS, JavaScript
 - **Databases:** MySQL, MongoDB
 - **Frameworks/Technologies:** REST APIs, OpenStreetMap API, React , Node.js , Flask
 - **SoftSkills:** Effective Communication ,Problem Solving, Time Management, Adaptability, TeamWork, Creativity.
 - **Others:** Data Structures, OOP's
-
